

A woman in a bikini is captured mid-air, jumping from a small boat into the water. The boat is green and white with a canopy structure. The background shows a sunset over a body of water with hills in the distance. The text 'PROJECT HIU' is in a smaller font, and 'INDONESIAN INTERNSHIPS' is in a large, bold font.

LONG-TERM

SHORT VS. LONG TERM

2 WEEKS (SHORT-TERM):

The only option that is free of cost, and because of this special opportunity nothing will be included. Therefore, flights, accommodation, rentals, food and any purchase of merch will be your responsibility.

1 MONTH (SHORT-TERM):

Similar to our two week option, however this longer length allows you to develop a closer relationship with our fishermen and gain more experience over a one month period. A crew shirt will also be included in this internship, however all flights, accommodations, rentals and food will be your responsibility.

1 MONTH (LONG-TERM):

Our long term options give the opportunity to completely take over the operations on the ground. By working closely with the Manager and Madison Stewart, you'll gain a more in-depth and knowledgeable experience. A crew shirt will also be included in this internship, however all flights, accommodations, rentals and food will be your responsibility.

2 MONTH (LONG-TERM):

Similar to our 1 month long internship, you'll be responsible for majority of the operations. And also working closely with the Manager and Madison Stewart, you'll gain an more in-depth and knowledgeable experience. A crew shirt will be included, along with your first 3 nights stay at a hotel in Kuta. After that, the rest of your accommodations, flights, rentals and food will be your responsibility.

COST & LOCATION

Since the two week internship is free of cost, there are a few things to consider in relation to personal costs while here.

You'll need to find your own accommodations, will be responsible for your own flights, and you must also consider the cost of food and bike rentals while here.

We are located in Kuta, Lombok. A small village that is slowly growing with many options for restaurants, accommodations, and near by beaches (however said beaches are only reachable by bike & car).

Flights & Accommodation

As previously mentioned, the internship itself will be free of cost. However things such as, flights, accommodation, insurance, and any other expenses will have to be covered by you.

Once you've received your acceptance into our internship program, you will be given a list of reputable places within Kuta. Allowing you the ability to research and decide what you like best.

Most domestic flights fly directly to Lombok, making getting here rather easy. Once your flights are booked, be sure to book accommodations as soon as possible. High season in Kuta, Lombok is from June-September. However, it also tends to get busy within the first two weeks of October due to the motor-cross event.
